

PAVAN N JADHAV

Junior UI/UX Designer | Product Thinker | Design Systems

pavannjadhav12@gmail.com | +91 8970519395 | Bangalore, Karnataka, India

[LinkedIn](#) | [GitHub](#) | [Behance Portfolio](#)

PROFESSIONAL SUMMARY

Junior UI/UX Designer with hands-on expertise in end-to-end product design — from UX Research, Heuristic Evaluation, and Usability Testing to high-fidelity Prototyping and Developer Handoff in Figma. Skilled in building scalable Design Systems using Auto Layout, Design Tokens, and interactive component variants. Applies Design Thinking, Design Sprint, and User Story Mapping methodologies to create responsive, accessible, and user-centered digital products. Proficient in cross-functional collaboration, stakeholder communication, and translating structured research insights into measurable design improvements. Experienced with WCAG accessibility standards and cross-platform design patterns.

SKILLS

Design Tools: Figma (Auto Layout, Components, Variants, Prototyping, Design Tokens), FigJam, Miro, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Framer, Maze

UI/UX Design: Wireframing, Low-Fidelity & High-Fidelity Prototyping, Interaction Design, Micro-interactions, Design Systems, Visual Design, Color Theory, Typography, Information Architecture, Developer Handoff, Responsive Design, Cross-Platform Design, Accessible UI Design

UX Research: User Research, Usability Testing, A/B Testing, Heuristic Evaluation, Empathy Mapping, User Journey Mapping, User Story Mapping, Affinity Mapping, Competitive Analysis, User Flows, Design Thinking, Design Sprint, Design Critique

Accessibility: WCAG 2.1 Guidelines, Inclusive Design, Accessible UI Components

Development: React, Tailwind CSS, MERN Stack (MongoDB, Express, React, Node.js), Gemini API, GitHub

Collaboration & PM: Notion, FigJam, Miro, Cross-functional Collaboration, Stakeholder Communication, Product Thinking

Languages: English (Proficient — Spoken & Written), Kannada, Hindi

EDUCATION

Bachelor of Computer Applications (BCA) Hons. — Software Product Engineering 2024 – 2028

R.V. College of Engineering, Bangalore | CGPA: 8.5 / 10

Senior Secondary (XII), Science — Karnataka State Board

2024

SMT Pushpa Mahalingappa College, Davangere

Secondary (X) — CBSE

2021

National Public School, Ranebennur

CERTIFICATIONS

UI/UX Design Specialization

01/2026 – Present

Internshala Trainings

UI/UX Design

12/2025 – 05/2026

Internshala

PROJECTS

The Family — Private Social Platform (UI/UX Case Study)

05/2026

Published Case Study · behance.net/pavanjadhav18

- Designed 23 high-fidelity screens for a private mobile app concept targeting digital fatigue; conducted user interviews, competitive analysis, and affinity mapping to surface pain points around passive social media consumption.
- Led structured usability testing with 4 participants; iterated on micro-gesture complexity and contextual navigation, reducing average task completion time and cognitive load — documented 2+ design iterations with measurable flow improvements.
- Engineered a production-ready Figma component library using 100% Auto Layout, nested components, interactive variants, and Design Tokens — fully optimised for React and Tailwind CSS developer handoff with annotated specs.
- Published full end-to-end case study on Behance, documenting research synthesis, design decisions, accessibility considerations, and handoff process.

One Step — Daily Habit Builder (UI/UX Case Study)

05/2026

- Designed a minimalist habit-tracking app in Figma; real-user testing surfaced UI friction points, driving 2+ design iterations on the core 10-second action flow — reducing interaction steps and improving user consistency.
- Developed a high-fidelity 'Focused Pro' Design System using strategic color palette, bold typography, and micro-interaction patterns to create a modern, high-energy visual identity.
- Defined complete User Flows and Information Architecture ensuring intuitive navigation and zero dead-ends across all app screens.

Reimagining a Social Media App

05/2026

- Designed a human-centered social media prototype using advanced Figma techniques; applied WCAG 2.1 accessibility guidelines across all UI components and dynamic interactions.
- Conducted heuristic evaluation and crafted UX flows aimed at reducing digital stress and fostering user wellbeing — documented design rationale for each stakeholder-facing decision.

AcademiaGPT — AI-Powered Personal Study Assistant

09/2025 – 11/2025

- Built a full-stack MERN application transforming static study materials into interactive knowledge bases with AI-powered, context-aware chat and instant document summarisation via Gemini API integration.
- Designed and engineered a responsive, accessible UI in React and Tailwind CSS; implemented automated practice quiz generation — demonstrating end-to-end product development and cross-functional design-to-dev handoff.

ACHIEVEMENTS

2nd Place — AI Mental Health App Hackathon

2026

- Led a cross-functional team of 4 to design and build an AI-powered mental health app for teenagers; integrated ChatGPT API for real-time interactive assistance and designed intuitive, WCAG-compliant user flows focused on engagement and safety.

EXTRACURRICULAR ACTIVITIES

Ex-Vice President, Recoil Biker Club

- Led departmental coordination, scaled club operations through team management, and produced high-impact video edits to strengthen brand identity and digital presence.
